**On the Level** From Your Full Service Remodeling Contractor

In This Issue. Window Replacement • Storm Damage Restoration • Recycling Program • Referral Program Rewards • Showcase Rewards

**What's New? Recycling Program – Potential Tax Deduction for Homeowners**

One of the unfortunate aspects of remodeling projects in the past has been the dumpsters of demolition waste headed for the landfill in preparation for the re-build process. We have a new recycling opportunity for some of your projects; reducing the amount of waste, benefiting those in need and it may result in a tax deduction.

Our demolition subcontractor, Quaale Enterprises has teamed with a non-profit organization, Reach and Restore, Inc., to recycle and re-use any viable items that are pulled from a home project during the demolition phase. Items such as cabinets, countertops, sinks, faucets and light fixtures are cleaned up and put back into the re-use cycle with the proceeds supporting the work of Reach and Restore. Once your items are reviewed for usability, you receive a statement of your contribution for your tax records, deductible as a charitable contribution.

**Need Windows Replaced? 4 Ways to Save Now!**

**LIMITED TIME SAVINGS.** Now is a great time to have IHP replace your windows. The savings are huge when you add up the various credits and rebates that are available. These are savings programs that have limited funds or limited timeframes, so act now. Tell your friends and neighbors and get your Referral Rewards!

**1 ARRA Tax Credit**  
 On February 17, the American Recovery and Reinvestment Tax Act of 2009 was signed into law. This bill extends and modifies the tax credits for windows, doors, and skylights established in the Energy Policy Act of 2005.

Qualifying products purchased between January 1, 2009 and December 31, 2010 are eligible for a tax credit equal to 30% of the product cost. Installation is not included; we will provide you with product cost documentation. The maximum amount of homeowner credit for all improvements combined (including roofing, insulation, HVAC, and water heaters) is \$1,500 during 2009 and 2010.

For more information, visit [www.energystar.gov/index.cfm?c=windows\\_doors.pr\\_taxcredits](http://www.energystar.gov/index.cfm?c=windows_doors.pr_taxcredits) or go to energystar.gov and click on products, then: Windows, Doors and Skylights under Home Envelope.

*The above information is not intended as legal advice regarding taxes, and you should consult a tax professional with specific questions.*

**3 IHP Matching Rebate**  
 For additional savings, IHP is matching the Thermo-Tech® manufacturer's rebate of \$25 per window and \$50 per Slim Line patio door up to \$250 per homeowner, through 2009 on qualifying Thermo-Tech® products.

**4 Project ReEnergize**  
 IHP is one of 840 licensed Minnesota contractors (out of over 13,000 statewide) that have been certified to participate in Project ReEnergize improvement projects. The State of Minnesota Department of Commerce and Department of Energy along with the Builders Association have developed a program for rebates of \$250 to \$300 per qualifying window. This program has limited funds available on a first come, first served basis – so act quickly for the great savings! Project ReEnergize also includes insulation and attic sealing options. Visit [www.projectreenergize.org](http://www.projectreenergize.org) for more information.

**Save today - give us a call today at 763-286-7429 for new windows.**

**2 Window Manufacturer Rebate**  
 Thermo-Tech® Windows, a manufacturer of energy efficient vinyl windows and doors is offering a rebate of \$25 per window and \$50 per Slim Line patio door up to \$250 total through 2009.
